

## JOB DESCRIPTION

We want to attract and retain the best talent in the industry. To meet this goal, we are creating a workplace where our employees are top priority;

### **Feel The Energy Of...**

**Our Assets** – Our current basins consistently see excellent results. With the addition of key acquisitions, our growth projections are extremely strong. We will remain committed to improving the quality, safety and performance of our assets.

**Our Performance** – We continue to demonstrate leadership in the mid-stream marketplace. We were ranked # 1 and #2 in "Customer Satisfaction" in the EnergyPoint Research, Inc. Natural Gas Midstream Services Customer Satisfaction Survey for 2006 and 2009, respectively.

**Our People** – Here at MarkWest, we believe our continued success depends on the quality of our employees. We believe strongly that employee satisfaction leads to customer satisfaction.

Come join our team as our **Integrity Engineer- Plants and Facilities** at our Tulsa, OK location. This position reports to the Director of Engineering.

### **POSITION SUMMARY:**

This position will be responsible for developing and implementing a company-wide mechanical integrity effort for facilities and plants that ensures full compliance with all regulatory agencies and will work with the other Integrity Group members to ensure full regulatory compliance. Assist operations and projects groups on new plant or facility installations. Take the lead on all facility and plant integrity efforts, working with the local operations team for ease of implementation.

### **ESSENTIAL DUTIES/RESPONSIBILITIES:**

- Develop and/or review/approve pipe specifications for facilities and plants;
- Develop, implement, and maintain processes, procedures, guidelines and/or standards to ensure compliance with all plant and facility related Process Safety Management integrity requirements.
- Be familiar with all regulatory requirements – federal, state, or local - for facilities and plants and ensure company compliance;
- Be able to develop standards and/or guidelines covering mechanical integrity for facilities and plants;
- Work with operations in identifying compliance requirements and get funding for upcoming work budgeted accordingly;
- Complete projects timely and within the specified budget;

- Have an excellent understanding of engineering and design principles.
- Have strong problem-solving skills and a creative approach for generating and implementing new ideas.
- Have an awareness of the environmental and regulatory impact of projected work.

### **SUPERVISORY DUTIES:**

No

### **JOB QUALIFICATIONS:**

- This position requires a degree in Engineering from a 4-year accredited college or university plus a minimum of 3-years experience in facility integrity or design.
- Current valid driver's license required.
- A Professional Engineering License is preferred.
- Must have excellent verbal and written communication skills with the ability to communicate effectively with all levels of individuals/employees.

### **WORK ENVIRONMENT:**

The position is located in an office environment. Travel to field locations will be required.

Interested and qualified candidates should contact us immediately to be considered for this terrific opportunity. Please send your resume to [employment@markwest.com](mailto:employment@markwest.com).
