

# MARKWEST

## Energy Partners, L.P.

### JOB DESCRIPTION

We want to attract and retain the best talent in the industry. To meet this goal, we are creating a workplace where our employees are top priority;

#### Feel The Energy Of...

**Our Assets** – Our current basins consistently see excellent results. With the addition of key acquisitions, our growth projections are extremely strong. We will remain committed to improving the quality, safety and performance of our assets.

**Our Performance** – We continue to demonstrate leadership in the mid-stream marketplace. We were ranked # 1 and #2 in "Customer Satisfaction" in the EnergyPoint Research, Inc. Natural Gas Midstream Services Customer Satisfaction Survey for 2006 and 2009, respectively.

**Our People** – Here at MarkWest, we believe our continued success depends on the quality of our employees. We believe strongly that employee satisfaction leads to customer satisfaction.

Come join our team as our **Piping Designer** at our Tulsa, OK location. This position reports to the Piping Supervisor.

#### POSITION SUMMARY:

Primary focus of this position is to help in the design, coordination, and management of projects from start of design to end of construction. The designer will be responsible for assisting the senior designer and coordinating with the drafters to generate the Process & Instrument Diagram drawings, piping plans, isometric drawings and miscellaneous civil/structural drawings. Perform all work in compliance with company standards, procedures, and government requirements. The position reports to the Piping Supervisor.

#### ESSENTIAL DUTIES/RESPONSIBILITIES:

The successful candidate will:

- Be involved in the design of projects of varying magnitude and complexity.
- Have an excellent grasp of piping design principles.
- Provide significant AutoCAD knowledge as well as third party piping software, preferably CADWorx Plant or Plant Pro.
- Be able to develop and/or review an array of project design documentation including: P&IDs, plot plans, piping plans, isometrics, equipment list, and line indexes.
- Be able to handle assignments and projects with minimal supervision, and complete projects within acceptable time standards.
- Have a broad knowledge of natural gas compressor stations and operations.
- Have strong problem-solving skills and a creative approach for generating new ideas.

- Recommend techniques and procedures to expedite and enhance project design.
- Have an awareness of the environmental and regulatory impact of design ideas.
- This position requires a minimum 4 years of experience in piping drafting.
- Must have excellent verbal and written communication skills with the ability to communicate effectively with all levels of individuals/employees.
- Current valid driver's license required.

## **WORKING CONDITIONS:**

### **Physical Demands:**

This position requires sitting throughout most of the day. It will involve some lifting and filing. On occasion there will be outside office assignments that can involve walking around construction sites, industrial locations, field and/or wooded areas.

### **Working Environment:**

Generally working in an office environment, however, May require visiting and walking around some construction and industrial sites, farm properties, driving on rural roads, and other field locations, to acquire familiarity with facilities, properties and settings.

### **Materials and Equipment Used:**

The materials and equipment used on a regular basis will be a personal computer, phone, fax, copier and map printer/plotter.

Interested and qualified candidates should contact us immediately to be considered for this terrific opportunity. Please send your resume to [employment@markwest.com](mailto:employment@markwest.com).
